

YEAR 1

YEAR 1

Coming up next week...

22.01.24

Maths

In Maths we will be adding within 20 by counting on. The children will start with concrete resources, then tell first, then, now number stories and move onto calculating using a number line. Each time we will be starting with the larger number first. Then we will be exploring number bonds to 20. We will be making links with our prior knowledge of number bonds to 10 and practically using the tens frames to show the difference between $2 + 8$ and $12 + 8$.

English

Thank you for all the fabulous facts you researched last week. The children have been excited to share their information. Everyone has written a question that they can answer using their facts. Next we will be exploring presentation of non fiction, with the key features: headings, sub headings, images and labels. Each time checking does it give us factual information?

Phonics

New GPC'S: 'u' sound: o-e (done), o (son), ou (touch), (z) se- cheese, (s) se- horse, ce- dance, (ee) ey- monkey

New Tricky Words: **thought, through, friend, work**

Reading

Our new Bug Club book will be "A Home for Henrietta". One day, crawling under stones in the garden, Callum spies Henrietta the woodlouse. Callum is determined to find her a home, and stop her from getting squashed. With the help of his sister, they try all sorts of different homes for Henrietta. But no matter what they try, nothing seems to be right. Will they ever find the perfect home for Henrietta?

Our fluency poem is called: Winter Animals and our focus is on expression.

Topic

We are very excited to welcome 'Animal Club' to school to help bring our animal groupings Science topic to life! We will be able to use our previous learning to categorise the visiting animals and we will be learning about carnivores, herbivores and omnivores. **Please see the additional email for further information and payment details.**

PSHE - sharing pictures. Through an age appropriate friendly animation, we will remind the children that there are a lot of benefits of the internet, but there are also risks and we need to think carefully when using it and we will discuss consent.

RE- Following our learning about the Torah, we will be learning about the Jewish place of worship the synagogue.

PE- In PE we will be continuing our unit of Dance linked to Weather and we will be developing our ball skills.

Computing - We will be learning about algorithms and how important it is that instructions are clear and precise.

Additional notes and reminders

Animal Club visiting workshop Tuesday 23rd January 2024. Please see additional email with further details and payment methods.

Please note that as the week progresses it is sometimes necessary to change what is planned to meet the learning needs of the children and therefore changes to the above may occur.
